Dear brothers,

2020-2021 CIRCUIT ASSEMBLY WITH CIRCUIT OVERSEER (MP-09) ON JW STREAM STUDIO

With heart full of appreciation, I say thank that you brothers for this loving arrangement of allowing us to enjoy our circuit assembly from a live studio. The fact that it was happening live just naturally added to my overall enjoyment of the program.

It made me to appreciate once more the reason why the governing body recommended video conferencing as the option preferable to downloaded talks.

The minor internet connectivity issues did not remove from my joy of enjoying it live. I also used about 800mb of data. This to me is very bearable.

I don't know how long this present situation relating to the pandemic will last. In the meantime, enjoying larger assemblies live from JW STREAM STUDIO is next to enjoying them live at the assembly halls.

May Jehovah continue to bless you all abundantly for your selfless efforts in supporting kingdom interests and the governing body for discreetly discerning how best to satisfy our needs.

Your brother

Osazee Isere
